

Dear Parent/Guardian,

Cough drops are not allowed to be carried and/or self administered at the Dr. Lewis S. Libby school. The Health office provides a specific brand and type of cough drop that is approved by the School's physician. There is a limit to how many cough drops can be given to a student each day and this can only be monitored from the Health office. If your child's physician wants to write a note and sign a medication permission form to allow cough drops during a time of illness please contact the school nurse.

Thank you,
Mrs. Howard
School Nurse
